

# Language and Culture Transition Program

## Adjusting to life in a new country can be exciting but also challenging.

Now that you've made the important decision to study abroad, you might be feeling a little confused or anxious. Don't worry—we have created a special program to help you get answers to important questions:

- What can I do to prepare for the placement test?
- How can I acquire useful study skills?
- Will I be able to understand my instructors?
- How are classrooms in Canada different from classrooms in my own country?
- Will it be difficult to adapt to the campus and the surrounding community?

This fun and exciting program ensures you will be more confident and better prepared when you step into your first academic class. As a result, you will be able to focus on your studies and maximize every learning opportunity.

## Great news!

We've added six enhanced sessions to our highly successful Language and Culture program to meet the needs of international students who will be starting academic programs in September. Now you can have fun and prepare for your studies at the same time...all at a very special price.
