

Course Outline

Accounting and Finance
School of Business & Economics
ACCT 4200 - **3.00** - Academic
Advanced Financial Accounting

Rationale

Update Calendar Description.

Calendar Description

Students examine a number of complex issues in advanced financial reporting. Topics include financial accounting standards, temporary and long-term investments in both debt and equity securities, investments with significant influence, an in-depth study of business combinations, joint ventures, foreign currency transactions, fair value and cash flow hedges, consolidation of foreign operations, not-for-profit organizations, and public sector reporting objectives and issues.

Other Hours: 0

Clarify:

Total Hours: 3.00

Delivery Methods: (Face to Face)

Impact on Courses/Programs/Departments: none

Repeat Types: A - Once for credit (default)

Grading Methods: (S - Academic, Career Tech, UPrep)

Educational Objectives/Outcomes

1. Apply conceptual principles when selecting appropriate accounting policies.
2. Demonstrate the ability to assess a situation, identify issues and alternatives, and provide a recommendation using advanced accounting knowledge and ethical professional judgment.
3. Classify and account for various financial instruments using International Financial Accounting Standards.

4. Explain the concept of business combinations and the main theories and methods of accounting for business combinations.
5. Prepare consolidated financial statements at acquisition and in subsequent years for both fully owned and partially owned subsidiaries.
6. Apply the equity method of accounting for joint ventures (IFRS 11).
7. Translate foreign currency transactions and account for fair value and cash flow hedges.
8. Choose and apply the proper method to translate and consolidate foreign operations.
9. Explain the objectives of not-for profit organizations and account for these organizations using the guidelines in Part III of the CPA Canada Handbook. Apply the deferral method and the restricted fund method. Apply fund accounting and budgetary control.
10. Describe the financial reporting objectives for government and discuss the reporting issues relevant to government.
